3M™ Nomad™ Matting

Proven expertise over many years

Over 30 years ago, 3M scientists developed a product which would help effectively protect building entrances from dirt. The first Nomad™ matting product with its revolutionary vinyl "coiled loops" was developed to help remove moisture as well as dirt and debris. Incorporating carpet fiber technology, 3M expanded its entrance matting offering. Today, thanks to continuous innovation and proven expertise, 3M offers a complete line of entrance matting as well as Safety-Walk™ branded wet area and anti-fatigue work area matting.

3M™ Nomad™ Entrance Matting

It's more than a mat. It's a system.

The 3M™ Nomad™ Entrance Matting System is designed to stop dirt and moisture at the door, helping keep floors clean throughout your facility. Today's emphasis on green cleaning and the impact of the cleanliness of a building on health makes trapping dirt and moisture at the door critical. By using the 3M™ Nomad™ Entrance Matting System, the result is cleaner-looking floors that are easier to maintain, safer for building occupants, and less likely to be damaged by tracked-in dirt.

THE 3M™ NOMAD™ ENTRANCE MATTING SYSTEM CONSISTS OF 2 TYPES OF MATS:
