

Hospital Entrance +

A 3D architectural rendering of a modern hospital entrance. A large blue sign with the text "Hospital Entrance" and a white cross symbol is mounted above the glass doors. The entrance area is marked with yellow dashed lines on the floor to indicate social distancing. Several stylized human figures are positioned at the entrance, some standing on the yellow markers. A hand sanitizer dispenser is visible on the right side of the entrance. The background shows a multi-story building with many windows. A large blue geometric shape is overlaid on the bottom left of the image.

# Social distancing and cleaning solutions for healthcare

# Social distancing and cleaning solutions for healthcare

**With 3M products, you are choosing the quality and expertise of a renowned, global brand. Trust 3M experience and be sure that when you use or install our solutions, they will deliver on their claimed results and provide the stated standard.**

The COVID-19 global pandemic has brought the concept of social distancing into all of our lives. Over the coming months all facilities will be required to introduce new measures to prevent the spread of the virus and maintain safety for patients and workers.

3M has many years of experience working with businesses to create best fitting solutions. Our extensive range of floor, window and wall graphic vinyls can give your patients and staff the simple visual markers they need to help maintain the required distance at all times. We can also help improve your everyday facility cleaning with top quality and effective solutions.

From floor graphics to slip-resistant tapes and time-saving, effective cleaning products, 3M will help you maintain a professional image that will show patients you care.

# Simplify your facility cleaning and maintenance

Make your healthcare facility shine with high cleaning standards and efficient solutions to match your needs. 3M's innovative cleaning products will help you simplify complex cleaning and maintenance tasks.

## 3M™ Nomad™ Ultra Clean Mat 4300

Disposable multi-layered mat designed to help protect areas where cleanliness and hygiene are critical.

Tacky top surface reduces dirt and dust from shoe soles and wheels (beds and wheelchairs).

The mat can be laid onto any clean surface with no edging or holding frame required. It can be easily removed or replaced.

### Scotch-Brite™ Clean & Shine Floor Pad

Shines floors as you clean

Floors can look dull after being treated with chemicals and disinfectants. This pad helps you to easily maintain a shining floor reflection.

Shines the floor as you clean with it. With just plain water, neutral cleaner or disinfectant, it effectively removes scuff marks faster than traditional floor pads and lasts significantly longer (up to 40,000 sqm).

### 3M™ Easy Trap Duster Sheets

Fast and efficient dusting sheets

Dusting is a crucial step in patient room cleaning. This product traps up to 8x more dirt, dust and sand than conventional flat-fringed cotton dust mops or competitive sweeping dust cloth solutions.

It can be used on both sides for dry or wet floors and to clean surfaces and floors.

Reduce the risk of cross contamination by disposing of duster and using a new one for each area.

### 3M™ Stainless Steel Cleaner and Polish Aerosol

Cleaning Stainless Steel Surfaces

Ideal for stainless steel, chrome, laminated plastics and aluminum surfaces.

With a high gloss formula, it wipes clean with no streaks or buildup, resists fingerprints and masks surface blemishes.

### 3M™ Scotchgard™ Surface Protection Film 2200

Protecting floors from unnecessary damage

Thin, almost invisible film compatible with standard floor cleaning procedures, floor disinfectants, cleaners and coatings.

Protects floors underneath disinfectant dispensers or other areas where the floor is at risk of damage. Reduces the risk of damaged floors trapping germs.

Reduces timely scrub & recoating required in high traffic areas.

Protection film can be easily removed or replaced.

# Increasing confidence in your healthcare facility

## Social distancing in healthcare

Every healthcare facility has unique needs for social distancing measures, which can be reinforced through graphic messaging on floors, windows and walls. Below are some examples of how 3M graphics can create eye-catching displays to encourage social distancing practices.

3M™ Envision Print Film 48C-20R non-PVC custom wall decals are easily applied and can be cleanly removed from most surfaces without causing surface damage, while leaving minimal to no adhesive residue.

Safety graphic examples:
